US/CANADIAN BORDER CROSSINGS

Canadian exhibitors seeking to export exhibit materials to the U.S. should be advised that U.S. Customs will require an IRS identification number for the entry of these shipments to the U.S. If your organization does not have an IRS number, your U.S. Customs broker has the capability to file and receive a temporary IRS number on your behalf. Failure to provide this number to the U.S. Broker at the border crossing will result in delays. Show Management cannot provide their tax identification number to exhibitors as the importer of record must be the name of the exhibitor or a distributor representing the exhibitor.

Exhibitor's expecting problems with border clearances should contact PIBL at 908-355-8900. For a fee, PIBL is prepared to clear your merchandise at the border or in Miami using their IRS number as the ultimate consignee. Please contact them in advance to discuss document requirements.

RESTRICTIONS ON WOOD PACKING MATERIAL

The United States Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) has revised its import regulation for wood packaging materials (WPM), 7 CFR § 319. The final rule was effective September 16, 2006 with full enforcement began July 5, 2006.

The regulation restricts the importation of many types of untreated wood articles, including wooden packaging materials such as pallets, crates, boxes, and pieces of wood used to support or brace cargo. The regulations currently refer to these types of wood packaging materials as solid wood packing materials, defined as "wood packing material other than loose wood packing material, used or for use with cargo to prevent damage, including, but not limited to, dunnage, crating, pallets, packing blocks, drums, cases, and skids." Any WPM not meeting the treatment specifications of this rule will be immediately re-exported.

The rule states that regulated wood packaging materials must be marked in a visible location on each article, preferably on at least two opposite sides of the article, with a legible and permanent mark that indicates that the article meets the new requirements. Paper treatment certificates will continue to be accepted until July 5, 2006. Should you have any questions regarding the wood packing material used for your exhibit, please consult your local Phoenix agent, in house freight forwarder, or packing and crating company.
